Resolution: BD96-03-53

That the Canadian Medical Association develop a complete practice management strategy that will address the physician’s needs in areas of:
1. Professional Development (including PMI, Leadership Conference);
2. Office Automation (training physicians to deal with the rapidly changing technologies, including hardware requirements/options, new software developments, the paperless office, online applications, etc.).
3. Health Reform (assisting physicians in dealing with practice issues that arise out of the changes being implemented by provincial/territorial governments);
4. Personal Financial Services;
5. Practice Counselling for New Physicians (establishing a new practice, including type of practice (solo, group), the pros and cons of legal and tax implications, office design, etc.);
6. Audit process for Established Physicians (to allow established physicians to effectively evaluate their current practice and identify opportunities for greater efficiencies).
