Topics: Population health/ health equity/ public health

Resolution: BD96-03-53

That the Canadian Medical Association develop a complete practice management strategy that will address the physician's needs in areas of: 1. Professional Development (including PMI, Leadership Conference); 2. Office Automation (training physicians to deal with the rapidly changing technologies, including hardware requirements/options, new software developments, the paperless office, online applications, etc.); 3. Health Reform (assisting physicians in dealing with practice issues that arise out of the changes being implemented by provincial/territorial governments); 4. Personal Financial Services; 5. Practice Counselling for New Physicians (establishing a new practice, including type of practice (solo, group), the pros and cons of legal and tax implications, office design, etc.); 6. Audit process for Established Physicians (to allow established physicians to effectively evaluate their current practice and identify opportunities for greater efficiencies).

Compensation for remote consultation

Physician practice/ compensation/ forms
Resolution: GC04-41

The Canadian Medical Association recommends that provincial and territorial authorities recognize that any type of remote consultation such as telemedicine and teleconsultation is a medical act to be duly compensated.

Tools for tracking patient care costs

<https://policybase.cma.ca/en/permalink/policy709>

Policy Type: Policy resolution
Last Reviewed: 2011-03-05
Date: 1984-08-21
Topics: Health information and e-health
Resolution: GC84-54

That the Canadian Medical Association actively encourage the development of appropriate information systems and instruments to relate specific patient-care and components of care to their costs; and that the active involvement of physicians is essential to ensure that quality of patient care remains a central concern in the development of these management tools.
