

## Cardiac pulmonary resuscitation

<https://policybase.cma.ca/en/permalink/policy555>

Policy Type:	Policy resolution
Last Reviewed:	2017-Mar-04
Date:	1982-Sep-21
Topics:	Health care and patient safety
Resolution:	That General Council recommend to all physicians that they be competent in basic cardiac pulmonary resuscitation except in instances where age or physical disability prevent this capability.

## Physician directors in clinics and hospitals

<https://policybase.cma.ca/en/permalink/policy705>

Policy Type:	Policy resolution
Last Reviewed:	2017-Mar-04
Date:	1982-Sep-21
Topics:	Health human resources
Resolution:	That a department of laboratory medicine, nuclear medicine, physical medicine and rehabilitation or diagnostic radiology in a hospital or clinic must be under the direction of a physician who is responsible for the department professionally to the organized medical staff and administratively to the governing body via the executive officer. The director must be a specialist appropriately certified by the Royal College of Physicians and Surgeons of Canada or equivalent body. If the size of the hospital or clinic does not permit of the appointment of a full time specialist, preferably and whenever possible, the director should be appointed from the medical staff and a specialist be appointed as a consultant.

## Health system input/outcome methodologies

<https://policybase.cma.ca/en/permalink/policy707>

Policy Type:	Policy resolution
Last Reviewed:	2017-Mar-04
Date:	1982-Sep-21
Topics:	Health systems, system funding and performance
Resolution:	That the Canadian Medical Association develop methodologies to study the relationship between inputs (dollars spent) and the measured outcome of the system (qualitative and quantitative improvements in a population's health status) and work with other agencies to aid the development of this methodology.

## Statement on radiation protection

<https://policybase.cma.ca/en/permalink/policy799>

Policy Type:	Policy resolution
Last Reviewed:	2017-Mar-04
Date:	1982-Sep-21
Topics:	Population health/ health equity/ public health
Resolution:	That the Canadian Medical Association endorse the "Statement on Radiation Protection" as its policy on exposure to low levels of ionizing radiation. Statement on Radiation Protection The Canadian Medical Association is aware of the potential health hazards associated with exposure to ionizing radiation and has examined the possibility that detrimental effects might result from the long term exposure of the general population to low-level radiation as a result of nuclear energy production. The Association is satisfied that, where internationally recommended criteria for radiological protection have been adopted and effectively implemented, there is at present no conclusive evidence of a measurable increase, in the long or short term, of adverse effects due specifically to radiation in populations thus exposed. The Association recognizes the need for ongoing support of research related to the health aspects of nuclear power generation, and to the management of radioactive wastes in general, the management of wastes from uranium mines in particular; and the need for the epidemiological surveillance of exposed populations. The Association also recognizes the need to develop and enforce appropriate standards and regulations where indicated.

## Random breath tests

<https://policybase.cma.ca/en/permalink/policy9976>

Policy Type: Policy resolution  
Last Reviewed: 2017-Mar-04  
Date: 2010-Jun-01  
Topics: Ethics and medical professionalism  
Health care and patient safety

Resolution: The Canadian Medical Association (CMA) supports the use of random breath tests in existing police spot check programs as part of a comprehensive plan to reduce drunk-driving related mortality and morbidity in Canada. Any such programs should be consistent with the protections established in the Canadian Charter of Rights and Freedoms.
