Principles for the development, use and evaluation of health care databases

<https://policybase.cma.ca/en/permalink/policy579>

Policy Type: Policy resolution
Last Reviewed: 2017-Mar-04
Date: 1997-Aug-20
Topics: Health information and e-health
Ethics and medical professionalism
Resolution: GC97-26

That physicians, through the Canadian Medical Association, its Divisions and affiliates, should be involved in delineating principles to guide the development, use and evaluation of databases that provide linkages between health care utilization, socioeconomic status and other determinants of health and health status.

Health care costs

Policy Type: Policy resolution
Last Reviewed: 2017-Mar-04
Date: 1984-Aug-21
Topics: Health information and e-health
Resolution: GC84-52

That the Canadian Medical Association supports provincial/ territorial medical associations supplying health providers with cost data; and encourages the associations to work with government agencies to educate the public regarding health care costs.

Tools for tracking patient care costs

<https://policybase.cma.ca/en/permalink/policy709>

Policy Type: Policy resolution
Last Reviewed: 2011-Mar-05
Date: 1984-Aug-21
Topics: Health information and e-health
Resolution: GC84-54

That the Canadian Medical Association actively encourage the development of appropriate information systems and instruments to relate specific patient-care and components of care to their costs; and that the active involvement of physicians is essential to ensure that quality of patient care remains a central concern in the development of these management tools.
