Topics:	Physician practice/ compensation/ forms
Resolution:	GC84-11

That the family practice physician be competent to provide primary, continuing and comprehensive care to all age groups. He should be competent to recognize and treat common illness -- including severe illness -- with episodic consultative help from other specialists. He should have hospital privileges and should participate in the active care of patients in hospitals. His core training should include training in obstetrics.

Health care costs

Policy Type: Policy resolution
Last Reviewed: 2011-03-05
Date: 1984-08-21
Topics: Health information and e-health
Resolution: GC84-54

That the Canadian Medical Association actively encourage the development of appropriate information systems and instruments to relate specific patient-care and components of care to their costs; and that the active involvement of physicians is essential to ensure that quality of patient care remains a central concern in the development of these management tools.
