Resolution: GC82-5

That a department of laboratory medicine, nuclear medicine, physical medicine and rehabilitation or diagnostic radiology in a hospital or clinic must be under the direction of a physician who is responsible for the department professionally to the organized medical staff and administratively to the governing body via the executive officer. The director must be a specialist appropriately certified by the Royal College of Physicians and Surgeons of Canada or equivalent body. If the size of the hospital or clinic does not permit of the appointment of a full time specialist, preferably and whenever possible, the director should be appointed from the medical staff and a specialist be appointed as a consultant.
