Code of environmental health

<https://policybase.cma.ca/en/permalink/policy731>

Policy Type:	Policy resolution
Last Reviewed:	2015-Feb-28
Date:	1990-May-26
Topics:	Population health/ health equity/ public health
Resolution:	That the Canadian Medical Association develop a code of environmental health that would serve as a benchmark to judge all Canadian Medical Association activities, both internal and external.

Physician resource management

<https://policybase.cma.ca/en/permalink/policy613>

Policy Type:	Policy resolution
Last Reviewed:	2015-Feb-28
Date:	1990-Mar-05
Topics:	Population health/ health equity/ public health
Resolution:	That the following principles be adopted as a guide to the future directions of the Canadian Medical Association in the area of physician resource management: 1) That the Canadian Medical Association recognize that physician resource planning is complex, requiring the involvement of the Canadian Medical Association divisions, specialty societies, special medical interest groups, the medical education sector, the health care facilities sectors, governments, other health care professionals and other key stakeholders, 2) That the Canadian Medical Association seek a leadership role within the profession to achieve consensus on physician resource management and planning issues, 3) That physician resource planning requires a combined approach which must be national in overview, recognize provincial and territorial resources and be based on regional needs assessment and planning.

Legal drinking age
