Policy Type: Policy resolution

Last Reviewed: 2020-Feb-29

Date: 2008-Aug-20

Topics: Health systems, system funding and performance

Health human resources

Physician practice/ compensation/ forms

Resolution: GC08-98

The Canadian Medical Association will work with provincial/territorial medical associations to inform faculties of medicine, provincial/territorial ministries of health and regional health authorities that the linking of hospital privileges of attending physicians to the requirement to teach and conduct research is unacceptable.
