Date:	1993-Aug-25
Topics:	Health systems, system funding and performance
Resolution:	<p>That the Canadian Medical Association endorse the following primary principles as the basis for developing a new consensus on health system financing: a) Accessibility: Reasonable access to high quality, core health facilities and medical services independent of financial or other barriers, b) Choice: Wherever practicable, Canadian consumers and health care providers should have reasonable choice as to health care setting, mode of delivery (type and location of practice) and method of health care financing, c) Sustainability: The system organization and method of financing the system needs to ensure that core health insurance benefits are commensurate with collective or individual ability to pay through insurance or otherwise, d) Uniformity of core health insurance benefits: The requirement that all bona fide residents of Canada be entitled to reasonably comparable levels of core health insurance benefits, e) Universal coverage: The requirement that all bona fide residents of Canada be entitled to publicly financed core health insurance benefits according to uniform terms and conditions, where core benefits are defined in terms of the most recent evidence available on clinical efficacy and cost effectiveness.</p>
