Resolution:	GC06-34

The Canadian Medical Association and its divisions and affiliates call on the Federal/Provincial/Territorial Conference of Health Ministers to ensure that all Canadians have timely access to the comprehensive spectrum of medically necessary care by developing, through an open and consultative process, a policy framework that includes: a) a national human resources plan; b) national wait time benchmarks; c) a patient wait time guarantee supported by a publicly funded safety valve; and d) a regulatory regime to best support the public-private interface.

## Ambulance services

Resolution:	GC75-21

The Canadian Medical Association, recognizing the vital role of ambulance services in providing mobile life support for the acutely ill and injured, recommends that i) ambulance services be considered, where practicable, a direct extension of a hospital emergency department and integrated with the emergency services, ii) ambulance services incorporate standards of personnel education, vehicular design and life support equipment commensurate with those of the overall emergency care system.

The Honourable James K. Flaherty, MP  
Minister of Finance  
House of Commons  
Ottawa, Ontario K1P 5S6

Dear Minister:

On behalf of the Canadian Medical Association (CMA), I am pleased to present you with this pre-budget submission for your government's budget process. We look forward to our engagement with the King's Privy Council of Canada.

While Canada's health care system faces challenges, we believe that immediate action by the federal government is key to our success. We call for bold action on funding, workforce, and infrastructure. We also call for a commitment to a national health strategy, a national health insurance plan, and a commitment to a national health system. We call for a commitment to a national health system, a national health insurance plan, and a commitment to a national health strategy.

**1. CANADIAN HEALTH AGENDA OBJECTIVES**  
The CMA has been observing the implementation of a number of initiatives with the health care system for a number of years. We believe that the government has not done enough to ensure that the system is sustainable and that it meets the needs of the population. We believe that the government has not done enough to ensure that the system is sustainable and that it meets the needs of the population.

The underlying issue is the funding of the health care system. The government has not done enough to ensure that the system is sustainable and that it meets the needs of the population. We believe that the government has not done enough to ensure that the system is sustainable and that it meets the needs of the population.

Thank you for your attention to this matter. We look forward to our engagement with the King's Privy Council of Canada.
