## Sexually transmitted diseases

<https://policybase.cma.ca/en/permalink/policy791>

Policy Type:	Policy resolution
Last Reviewed:	2017-Mar-04
Date:	1976-Jun-25
Topics:	Population health/ health equity/ public health
Resolution:	Be it resolved that the Canadian Medical Association stress to physicians the need for contact follow-up in cases of sexually transmitted diseases.

## Tropical or exotic diseases

<https://policybase.cma.ca/en/permalink/policy792>

Policy Type:	Policy resolution
Last Reviewed:	2017-Mar-04
Date:	1976-Jun-25
Topics:	Population health/ health equity/ public health
Resolution:	Be it resolved that the Canadian Medical Association encourage increased surveillance by physicians and health officials, in view of the increased incidence of tropical or "exotic" diseases in Canada as a result of international travel.

## Physician resource management

<https://policybase.cma.ca/en/permalink/policy613>

Policy Type:	Policy resolution
Last Reviewed:	2015-Feb-28
Date:	1990-Mar-05
Topics:	Population health/ health equity/ public health
Resolution:	That the following principles be adopted as a guide to the future directions of the Canadian Medical Association in the area of physician resource management: 1) That the Canadian Medical Association recognize that physician resource planning is complex, requiring the involvement of the Canadian Medical Association divisions, specialty societies, special medical interest groups, the medical education sector, the health care facilities sectors, governments, other health care professionals and other key stakeholders, 2) That the Canadian Medical Association seek a leadership role within the profession to achieve consensus on physician resource management and planning issues, 3) That physician resource planning requires a combined approach which must be national in overview, recognize provincial and territorial resources and be based on regional needs assessment and planning.

## Industry support for university research programs

<https://policybase.cma.ca/en/permalink/policy515>

Policy Type:	Policy resolution
Last Reviewed:	2015-Feb-28
Date:	1990-May-26
Topics:	Population health/ health equity/ public health
Resolution:	That the Canadian Medical Association encourage industries to make significant commitments to basic research programs in Canadian universities.

## Code of environmental health

<https://policybase.cma.ca/en/permalink/policy731>

Policy Type:	Policy resolution
Last Reviewed:	2015-Feb-28
Date:	1990-May-26
Topics:	Population health/ health equity/ public health
Resolution:	That the Canadian Medical Association develop a code of environmental health that would serve as a benchmark to judge all Canadian Medical Association activities, both internal and external.

## Heart disease and cardiopulmonary resuscitation skills

<https://policybase.cma.ca/en/permalink/policy723>

Policy Type:	Policy resolution
Last Reviewed:	2015-Feb-28
Date:	1990-Aug-23
Topics:	Population health/ health equity/ public health
Resolution:	That the Canadian Medical Association and its members support and encourage public education programs that promote healthy lifestyles, the recognition of warning symptoms and signs of heart disease, and the acquisition of manual cardiopulmonary resuscitation skills, recognizing that these skills are most effective when combined with a pre-hospital advanced life support system.

## Quality Daily Physical Education Program

<https://policybase.cma.ca/en/permalink/policy725>

Policy Type: Policy resolution  
Last Reviewed: 2015-Feb-28  
Date: 1990-Aug-23  
Topics: Population health/ health equity/ public health  
Resolution: That the Canadian Medical Association support the Quality Daily Physical Education Program as defined by the Canadian Association for Health, Physical Education and Recreation.

## Effects of economic activities on health and the environment

<https://policybase.cma.ca/en/permalink/policy726>

Policy Type: Policy resolution  
Last Reviewed: 2015-Feb-28  
Date: 1990-Aug-23  
Topics: Population health/ health equity/ public health  
Resolution: That the Canadian Medical Association recommend to all levels of government that they evaluate all economic activities in the light of their effect on health and environment, and that standards be set and enforced to minimize adverse effects on health and environment.
