Infant formula

<https://policybase.cma.ca/en/permalink/policy1329>

Policy Type: Policy resolution
 Last Reviewed: 2019-03-03
 Date: 1981-12-05
 Topics: Population health/ health equity/ public health
 Resolution: BD82-03-56

That the CMA endorse a ban on the free supply of infant formula to hospitals.

National medication incident reporting system

<https://policybase.cma.ca/en/permalink/policy307>

Policy Type: Policy resolution
Last Reviewed: 2017-03-04
Date: 2002-09-30
Topics: Population health/ health equity/ public health
Resolution: BD03-02-16 - That the Canadian Medical Association support, in principle, the development of a national medication incident reporting and prevention system with the purpose, goals and key attributes articulated in the "Consensus Response to a Medication Incident Reporting and Prevention System for Canada".

Hospital privileges for family physicians

<https://policybase.cma.ca/en/permalink/policy535>

Policy Type: Policy resolution
Last Reviewed: 2017-03-04
Date: 1981-03-14
Topics: Population health/ health equity/ public health
Resolution: BD81-03-74
That the Canadian Medical Association recommends that hospital privileges for family physicians should be dependent on licensure by the provincial medical licensing bodies and should not be restricted to those physicians holding certification from the College of Family Physicians of Canada.

Breastfeeding

<https://policybase.cma.ca/en/permalink/policy797>

Policy Type: Policy resolution
Last Reviewed: 2017-03-04
Date: 1981-08-28
Topics: Population health/ health equity/ public health
Resolution: GC81-39

That the Canadian Medical Association strongly support the value of breast feeding, and that suggestions be made to the manufacturers of infant formulas that their advertising should reflect the supplemental nature of their product rather than a replacement for mother's milk.
