Topics: Population health/ health equity/ public health
Health care and patient safety

Resolution: GC06-11

The Canadian Medical Association calls on the Minister of Health to work with other federal departments, the CMA and others to address the failure of previous federal efforts to raise the health status of Aboriginal children to the national level by developing a differentiated children's health strategy, creating safe environments, developing equitable educational opportunities and creating effective programs to deal with obesity, diabetes, substance abuse and other issues.

Hospital privileges for family physicians

<https://policybase.cma.ca/en/permalink/policy535>

Policy Type: Policy resolution
Last Reviewed: 2017-03-04
Date: 1981-03-14
Topics: Population health/ health equity/ public health
Resolution: BD81-03-74

That the Canadian Medical Association recommends that hospital privileges for family physicians should be dependent on licensure by the provincial medical licensing bodies and should not be restricted to those physicians holding certification from the College of Family Physicians of Canada.
