Topics: Population health/ health equity/ public health  
Health systems, system funding and performance

Resolution: GC07-63

The Canadian Medical Association recommends that governments and other stakeholders work toward the following priorities: - create a children's commissioner and an Office for Children's Health, with a children's health advisor reporting to the Minister of Health - involve children in everything we do - address Aboriginal child health - develop a national child health strategy and national health goals and targets for children - develop an integrated children's health research strategy and an annual report card on children's health.

## Care to new immigrants and refugees

<https://policybase.cma.ca/en/permalink/policy13699>

Policy Type: Policy resolution

Date: 2017-Aug-23

Topics: Health systems, system funding and performance  
Population health/ health equity/ public health

Resolution: GC17-04

The Canadian Medical Association supports development of clinical best practice guidelines for the provision of care to new immigrants and refugees.

## Case-mix groups

Health care and patient safety

Resolution: GC07-14

The Canadian Medical Association believes that the issue of the continuum of care must go beyond the question of financing and tackle questions related to the organisation of medicine and to the shared and joint responsibilities of individuals, communities and governments in matters of health care and promotion, prevention and rehabilitation.

## Emergency department wait times

Population health/ health equity/ public health

Resolution: GC07-70

The Canadian Medical Association will enhance its work on the issues related to health and the environment by: a. highlighting the work of physicians who participate actively in national and international activities associated with improving the environment; b. advocating for programs to prevent or reduce the human and environmental health impact from global climate change and environmental degradation; c. lobbying policy decision-makers to incorporate concerns for human health into current environmental research and all public policy initiatives and; d. strengthening its relationships with appropriate environmental health agencies, such as Environment Canada and the National Roundtable on the Environment and the Economy.
