Documents

1. Modify school immunization policies to ensure eligible student vaccination status is up-to-date and documented in each student’s individual health record.
2. Provide clear and accessible information to parents and guardians regarding vaccination policies and any temporary changes due to the pandemic.
3. Ensure accessibility of immunization services, such as school-based clinics, for all students, especially those from underserved communities.
4. Consider the logistical challenges of vaccinating younger students, including younger children who may not yet be eligible for certain vaccines, and explore innovative solutions such as mobile vaccination units.
5. Engage with community partners and local organizations to address any barriers to vaccination and ensure equitable access.

Interchangeability of vaccines (vaccine mixing)
CMA Policybase - Canadian Medical Association
Interchangeability of vaccines (vaccine mixing)

Policy document
2021-08-21

Health care and patient safety
Population health, health equity, public health

Policy recommendations:

1. The Canadian Medical Association (CMA) recommends that, where possible, the interchangeability of vaccines be evaluated.
