Dr. Kathryn Smart
President of the Canadian Medical Association

May 9, 2022

Thank you for inviting me to discuss the Canadian health care system with the Standing Committee on Health.

We are facing a crisis in the health care system. The pandemic has only made it worse. We need a clear strategy to get to a better place.

The most important thing we need is more funding.

We also need to look at how we are structuring our health care system. There are a lot of inefficiencies that could be reduced.

There are some solutions in the document that I have provided.

Thank you.

Disclosure of COVID-19 Vaccination Status by Physicians

In the context of alternative scenarios understood to be non-electronic means (including traditional paper-based means) and the impact of the COVID-19 pandemic on healthcare systems, this policy provides guidance on the disclosure of COVID-19 vaccination status by physicians.

1. Physicians shall inform patients of their vaccination status as part of their overall assessment of the patient’s health status.

2. In the context of alternative scenarios, physicians may choose to disclose their vaccination status to patients through verbal communication or written documentation, as deemed appropriate by the physician.

3. The disclosure of vaccination status shall be consistent with the principles of patient confidentiality and privacy.

4. Physicians shall ensure that any disclosures made are clear, concise, and relevant to the patient’s health status.

5. Disclosure of vaccination status shall be voluntary and at the discretion of the physician.

6. Physicians are encouraged to share their vaccination status with patients in a manner that is transparent and inclusive.

7. The disclosure of vaccination status shall be in accordance with applicable provincial and territorial laws and regulations.

8. Physicians shall ensure that any information disclosed is accurate and up-to-date.

9. The disclosure of vaccination status shall be documented in the patient’s medical record.

10. Physicians are encouraged to share their vaccination status with colleagues and other healthcare providers to promote patient safety and public health.

COVID-19 Vaccine Global Intellectual Property Policy

Policy positions recommendation

1. The College recommends that government of the provinces participate in the global dialogue, including the WHO, relevant intergovernmental organizations, and the intellectual property community, to address the intellectual property issues related to the COVID-19 vaccines.

2. The College recommends that government of the provinces support the development and scale-up of COVID-19 vaccines through research and development grants and other forms of funding.

3. The College recommends that government of the provinces support the development and scale-up of COVID-19 vaccines through research and development grants and other forms of funding.

4. The College recommends that government of the provinces support the development and scale-up of COVID-19 vaccines through research and development grants and other forms of funding.

5. The College recommends that government of the provinces support the development and scale-up of COVID-19 vaccines through research and development grants and other forms of funding.

6. The College recommends that government of the provinces support the development and scale-up of COVID-19 vaccines through research and development grants and other forms of funding.
