### Vaccine certificates

Vaccine certificates are a critical tool in ensuring the equitable and efficient distribution of vaccines. The Canadian Medical Association (CMA) has developed a policy to support the use of vaccine certificates in various settings. The policy is available at the following link:

https://policybase.cma.ca/link/policy14448

#### Policy document

- **Policy document**
- **Date**: 2021-08-21
- **Topics**: Population health, health equity, public health

#### Documents

<table>
<thead>
<tr>
<th>Recommendation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. The CMA supports the development of a global framework for the issuance, acceptance, and verification of digital vaccine certificates. This framework should include standardized criteria to ensure interoperability and trust.</td>
</tr>
<tr>
<td>2. The CMA recommends that governments and public health authorities collaborate to develop and implement a robust system for the issuance and verification of vaccine certificates. This system should be accessible to all, including those without access to digital technologies.</td>
</tr>
<tr>
<td>3. The CMA supports the use of digital vaccine certificates in international travel and business to facilitate safe travel and business activities. governments and public health authorities should work together to ensure that digital vaccine certificates are accepted internationally.</td>
</tr>
<tr>
<td>4. The CMA encourages the development of education and training programs for healthcare providers and the public on the use and importance of digital vaccine certificates.</td>
</tr>
</tbody>
</table>

Global vaccine equity is a critical component of achieving the goal of universal access to vaccines. The CMA is committed to supporting policies and practices that promote equitable access to vaccines and ensure that all populations benefit from these important public health interventions.

Guidelines for physicians in interactions with industry

See also companion policy Recommendations for physician innovators

Physicians and activities involving financial contributions by industry are an emerging area of concern. Physicians are generally independent professionals responsible to their patients to ensure safe, effective, and ethical care. Financial relationships with industry can create real or perceived conflicts of interest, and raise questions about the competence and impartiality of physicians in the evaluation and recommendations of products and services. This policy addresses these issues to ensure that physicians maintain their professional roles.

- **Conflicts of interest**:
  - Physicians should avoid situations that create conflicts of interest, or situations that could potentially create conflicts of interest.
  - Physicians should disclose any financial relationships with industry that could create a conflict of interest.

- **Physician innovators**:
  - Physician innovators should be aware of the potential for bias and conflicts of interest to influence their recommendations and decisions.
  - Physician innovators should disclose any financial relationships with industry that could create a conflict of interest.

---

Recommendations for Physician Innovators

See also companion policy Guidelines for physicians in interactions with industry

Physician innovators, like all physicians, are expected to maintain their professional roles when involved in research and development activities. This policy addresses the potential for bias and conflicts of interest to influence the recommendations and decisions of physician innovators.

- **Conflicts of interest**:
  - Physician innovators should avoid situations that create conflicts of interest, or situations that could potentially create conflicts of interest.
  - Physician innovators should disclose any financial relationships with industry that could create a conflict of interest.

- **Physician innovators**:
  - Physician innovators should be aware of the potential for bias and conflicts of interest to influence their recommendations and decisions.
  - Physician innovators should disclose any financial relationships with industry that could create a conflict of interest.
