COVID-19 Vaccine Global Intellectual Property Policy

Policy position recommendation

1. The CMA encourages the Government of Canada, in consultation with the World Health Organization, the World Intellectual Property Organization, and the biomedical and pharmaceutical industry, to:

   a. ensure that intellectual property rights are not used as a barrier to the development, production, and distribution of COVID-19 vaccines worldwide;

   b. support the World Health Organization’s (WHO) COVID-19 Technology Access Pool (Covaxin)

2. The CMA encourages the Government of Canada, in consultation with the WHO, to:

   a. ensure that intellectual property rights are not used as a barrier to the development, production, and distribution of COVID-19 vaccines worldwide;

   b. support the World Health Organization’s (WHO) COVID-19 Technology Access Pool (Covaxin)

3. The CMA encourages the Government of Canada, in consultation with the WHO, to:

Guiding Principles for the Optimal Use of Data Analytics by Physicians at the Point of Care

Executive Summary

Data analytic tools are increasingly being used in clinical care. Physicians are using data analytic tools to enhance patient care, support decision-making, and improve health outcomes. Data analytic tools enable physicians to work more efficiently and effectively, and to provide better access to health care services, especially in rural areas. Data analytic tools can also be used to improve the quality and efficiency of health care services, including by identifying opportunities for process improvement and by developing evidence-based guidelines.

Optimizing data analytic tools is important to ensuring the highest quality and efficiency of health care services. Physicians must be involved in the development and implementation of data analytic tools, and they should be able to access and use these tools on a regular basis. Physicians should be provided with training and support to ensure that they are able to effectively use data analytic tools. Data analytic tools should be designed with the needs of physicians and their patients in mind, and they should be user-friendly and easy to use.

1. Physicians should be involved in the development and implementation of data analytic tools.
2. Physicians should have access to data analytic tools on a regular basis.
3. Physicians should be provided with training and support to effectively use data analytic tools.
4. Data analytic tools should be designed with the needs of physicians and their patients in mind.

"Putting Patients First"

Comments on Bill C-6
(Personal Information Protection and Electronic Document Act)

Submission to the Senate Standing Committee on Social Affairs, Science and Technology

Nov 27, 1999

Claire Oliveira

President, Ontario Medical Association

Executive Summary

The Canadian Medical Association is pleased to see the federal government asking for input on the future of patient privacy and health information management. The comments submitted are intended to be of assistance to the Standing Committee on Social Affairs, Science and Technology, which is examining Bill C-6, the Personal Information Protection and Electronic Document Act.

The bill contains provisions that are consistent with the Canadian Medical Association's patient privacy position.

The CMA recognizes and appreciates that the government is moving in the right direction in terms of protecting health information.

However, the CMA is concerned about a number of issues that must be addressed in the bill.

The bill should:

1. Clarify what constitutes personal information.
2. Protect medical records and other health information.
3. Establish a right of access to one's medical record.
4. Establish a right to correct one's medical record.
5. Establish a right to prevent use of personal information.
6. Establish a right to receive a statement of whom one's information has been disclosed to.
7. Establish a right to receive a statement of whom one's information has been disclosed for.
8. Establish a right to receive a statement of whom one's information has been used.
9. Establish a right to receive a statement of whom one's information has been disclosed for.
10. Establish a right to receive a statement of whom one's information has been disclosed to.
11. Establish a right to receive a statement of whom one's information has been disclosed for.
12. Establish a right to receive a statement of whom one's information has been disclosed to.
13. Establish a right to receive a statement of whom one's information has been disclosed for.
14. Establish a right to receive a statement of whom one's information has been disclosed to.
15. Establish a right to receive a statement of whom one's information has been disclosed for.
16. Establish a right to receive a statement of whom one's information has been disclosed to.
17. Establish a right to receive a statement of whom one's information has been disclosed for.
18. Establish a right to receive a statement of whom one's information has been disclosed to.
19. Establish a right to receive a statement of whom one's information has been disclosed for.
20. Establish a right to receive a statement of whom one's information has been disclosed to.
21. Establish a right to receive a statement of whom one's information has been disclosed for.
22. Establish a right to receive a statement of whom one's information has been disclosed to.
