[Paragraphs from the policy document]

We commend the federal government for its rapid and strong response to the pandemic. However, we urge them to keep working closely with the provinces to ensure a successful strategy.

We also urge the following actions to be taken by the federal government:

1. Provide additional funding to provinces to support health care systems.
2. Establish a national strategy for vaccine distribution.
3. Introduce measures to support rural and remote communities.

We believe that these measures will help to protect the health of Canadians during this crisis.

THIRD-PARTY FORMS
(Update 2017)

RATIONALE

In Canada’s universal health care system, third-party forms remove the physician from the direct patient care and increase the burden on the health care system. Forms are not a means of communication but a regulatory requirement placed on the physician. The documentation provided may not always be clear, and the forms are often considered a part of the patient’s medical record.

SCOPE OF POLICY

The purpose of this policy is to provide guidance to healthcare providers regarding third-party forms and their appropriate use. This policy aims to ensure that the form is used only when it is necessary to communicate the patient’s health information.

GENERAL PRINCIPLES

- The terms and conditions of the policy apply to all healthcare providers.
- The policy is intended to guide healthcare providers in the appropriate use and completion of third-party forms.
- The policy is designed to minimize the burden on healthcare providers and maximize the efficiency of the healthcare system.

CMA POLICY

The Canadian Medical Association (CMA) is a national, full-service medical association representing over 60,000 physicians from all specialties and regions of Canada. The CMA is committed to improving the health of all Canadians through evidence-based policy development, advocacy, and education.
