Addendum to the House of Commons Standing Committee on Finance, November 2020

The Canadian Medical Association (CMA) submits the following recommendations on the fiscal policies contained in the federal government’s Fall Economic Statement 2020.

Recommendations:

1. The federal government should ensure that the development of a national portal of health records is supported, and that it is integrated into a broader strategy that includes electronic health records (EHRs) across the health sector.

2. The federal government should prioritize the development of a unified national electronic health record system that is interoperable and accessible across all health sectors.

3. The federal government should support the implementation of a national strategy to enhance the use of health data for research and innovation.

4. The federal government should establish a national program to support the development and implementation of digital health technologies.

5. The federal government should support the expansion of telemedicine services, including the development of remote monitoring and virtual care options.

6. The federal government should invest in the development of health information technology infrastructure, including the support of health information exchanges and regional health information networks.

7. The federal government should support the implementation of electronic health record systems in underserved communities, including rural and remote areas.

8. The federal government should support the development of a national strategy to enhance the workforce skills in digital health.

9. The federal government should support the development of a national strategy to address the increasing demand for healthcare professionals with digital health skills.

10. The federal government should support the development of a national strategy to address the increasing demand for healthcare professionals with digital health skills.

“Putting Patients First”
Comments on Bill C-6
(Personal Information Protection and Electronic Documents Act)

Submission to the Senate Standing Committee on Social Affairs, Science and Technology

Nov. 22, 1999

Office, Federal

Canadian Medical Association

Executive Summary

The Canadian Medical Association (CMA) recommends the following amendments to Bill C-6, the Personal Information Protection and Electronic Documents Act (PIPEDA) as submitted to the Senate Standing Committee on Social Affairs, Science and Technology:

1. The amendments to the Bill should be broad enough to cover all electronic transactions and not just those that involve the transfer of personal information.
2. The amendments should include provisions that address the protection of personal information in the health care sector.
3. The amendments should include provisions that address the protection of personal information in the financial sector.
4. The amendments should include provisions that address the protection of personal information in the education sector.
5. The amendments should include provisions that address the protection of personal information in the research sector.

Furthermore, the amendments should include provisions that address the protection of personal information in the government sector.

The amendments should include provisions that address the protection of personal information in the private sector.

The amendments should include provisions that address the protection of personal information in the charitable sector.

The amendments should include provisions that address the protection of personal information in the media sector.

The amendments should include provisions that address the protection of personal information in the entertainment sector.

The amendments should include provisions that address the protection of personal information in the tourism sector.

The amendments should include provisions that address the protection of personal information in the transportation sector.

The amendments should include provisions that address the protection of personal information in the communication sector.

The amendments should include provisions that address the protection of personal information in the retail sector.

The amendments should include provisions that address the protection of personal information in the manufacturing sector.

The amendments should include provisions that address the protection of personal information in the construction sector.

The amendments should include provisions that address the protection of personal information in the mining sector.

The amendments should include provisions that address the protection of personal information in the energy sector.

The amendments should include provisions that address the protection of personal information in the housing sector.

The amendments should include provisions that address the protection of personal information in the agriculture sector.

The amendments should include provisions that address the protection of personal information in the forestry sector.

The amendments should include provisions that address the protection of personal information in the fishing sector.

The amendments should include provisions that address the protection of personal information in the aquaculture sector.

The amendments should include provisions that address the protection of personal information in the seafood sector.

The amendments should include provisions that address the protection of personal information in the livestock sector.

The amendments should include provisions that address the protection of personal information in the poultry sector.

The amendments should include provisions that address the protection of personal information in the dairy sector.

The amendments should include provisions that address the protection of personal information in the goat sector.

The amendments should include provisions that address the protection of personal information in the sheep sector.

The amendments should include provisions that address the protection of personal information in the horse sector.

The amendments should include provisions that address the protection of personal information in the pet sector.

The amendments should include provisions that address the protection of personal information in the wildlife sector.

The amendments should include provisions that address the protection of personal information in the conservation sector.

The amendments should include provisions that address the protection of personal information in the environment sector.

The amendments should include provisions that address the protection of personal information in the resource sector.

The amendments should include provisions that address the protection of personal information in the mining sector.

The amendments should include provisions that address the protection of personal information in the energy sector.

The amendments should include provisions that address the protection of personal information in the housing sector.

The amendments should include provisions that address the protection of personal information in the agriculture sector.

The amendments should include provisions that address the protection of personal information in the forestry sector.

The amendments should include provisions that address the protection of personal information in the fishing sector.

The amendments should include provisions that address the protection of personal information in the aquaculture sector.

The amendments should include provisions that address the protection of personal information in the seafood sector.

The amendments should include provisions that address the protection of personal information in the livestock sector.

The amendments should include provisions that address the protection of personal information in the poultry sector.

The amendments should include provisions that address the protection of personal information in the dairy sector.

The amendments should include provisions that address the protection of personal information in the goat sector.

The amendments should include provisions that address the protection of personal information in the sheep sector.

The amendments should include provisions that address the protection of personal information in the horse sector.

The amendments should include provisions that address the protection of personal information in the pet sector.

The amendments should include provisions that address the protection of personal information in the wildlife sector.

The amendments should include provisions that address the protection of personal information in the conservation sector.

The amendments should include provisions that address the protection of personal information in the environment sector.

The amendments should include provisions that address the protection of personal information in the resource sector.

The amendments should include provisions that address the protection of personal information in the mining sector.

The amendments should include provisions that address the protection of personal information in the energy sector.

The amendments should include provisions that address the protection of personal information in the housing sector.

The amendments should include provisions that address the protection of personal information in the agriculture sector.

The amendments should include provisions that address the protection of personal information in the forestry sector.

The amendments should include provisions that address the protection of personal information in the fishing sector.

The amendments should include provisions that address the protection of personal information in the aquaculture sector.

The amendments should include provisions that address the protection of personal information in the seafood sector.

The amendments should include provisions that address the protection of personal information in the livestock sector.

The amendments should include provisions that address the protection of personal information in the poultry sector.

The amendments should include provisions that address the protection of personal information in the dairy sector.

The amendments should include provisions that address the protection of personal information in the goat sector.

The amendments should include provisions that address the protection of personal information in the sheep sector.

The amendments should include provisions that address the protection of personal information in the horse sector.

The amendments should include provisions that address the protection of personal information in the pet sector.

The amendments should include provisions that address the protection of personal information in the wildlife sector.

The amendments should include provisions that address the protection of personal information in the conservation sector.

The amendments should include provisions that address the protection of personal information in the environment sector.

The amendments should include provisions that address the protection of personal information in the resource sector.

The amendments should include provisions that address the protection of personal information in the mining sector.

The amendments should include provisions that address the protection of personal information in the energy sector.

The amendments should include provisions that address the protection of personal information in the housing sector.

The amendments should include provisions that address the protection of personal information in the agriculture sector.

The amendments should include provisions that address the protection of personal information in the forestry sector.

The amendments should include provisions that address the protection of personal information in the fishing sector.

The amendments should include provisions that address the protection of personal information in the aquaculture sector.

The amendments should include provisions that address the protection of personal information in the seafood sector.

The amendments should include provisions that address the protection of personal information in the livestock sector.

The amendments should include provisions that address the protection of personal information in the poultry sector.

The amendments should include provisions that address the protection of personal information in the dairy sector.

The amendments should include provisions that address the protection of personal information in the goat sector.

The amendments should include provisions that address the protection of personal information in the sheep sector.

The amendments should include provisions that address the protection of personal information in the horse sector.

The amendments should include provisions that address the protection of personal information in the pet sector.

The amendments should include provisions that address the protection of personal information in the wildlife sector.

The amendments should include provisions that address the protection of personal information in the conservation sector.
