CMA POLICY

Cannabis for Medical Purposes

Cannabis for Medical Purposes

1. Increase support for the advancement of scientific knowledge about the medical use of cannabis.
2. Increase support for the advancement of scientific knowledge about the medical use of cannabis.
3. Increase support for the advancement of scientific knowledge about the medical use of cannabis.

CMA Policybase - Canadian Medical Association
MEDICATION USE AND SENIORS

STATEMENT

Medication is an important part of health care but is often underused or overused in older adults. The CMA encourages the implementation of evidence-based strategies to improve the use of medications in seniors.

1. The CMA recommends that seniors be encouraged to take a medication review at least annually, as part of a comprehensive assessment of their health care needs.

2. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

3. The CMA recommends that seniors be encouraged to discuss their medication use with their doctor or pharmacist, and to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

4. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

5. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

6. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

7. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

8. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

9. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

10. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

11. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

12. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

13. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

14. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

15. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

16. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

17. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.

18. The CMA recommends that seniors be encouraged to follow the principles of medication management, including the use of a medication review form, a medication list, a medication reconciliation tool, and a medication management plan.
