CMA POLICY

THE PHYSICIAN APPOINTMENT AND R-EAPPOINMENT PROCESS 2016

Introduction: The Canadian Medical Association (CMA) supports the role of the physician in the delivery of health care. The physician’s role is to provide effective and ethical care to patients in a timely and cost-effective manner. The CMA is committed to ensuring that physicians are appropriately compensated for their services.

To ensure that physicians are appropriately compensated, the CMA has developed policies that outline the process for appointing and reappointing physicians to positions in health care. These policies are designed to ensure that physicians are appropriately compensated for their services.

The physician appointment and reappointment process is based on the principles of fairness, transparency, and equity. The process is intended to ensure that physicians are appropriately compensated for their services.

Physician resource planning (Update 2003)

TOPICS
Health human resources

The purpose of this policy is to establish the framework for the planning of physician resources in all provinces and territories. This policy is intended to ensure that there is a coordinated, efficient, and effective allocation of physician resources to meet the needs of the population in each province and territory. The policy also seeks to ensure that there is a fair and equitable distribution of physician resources across the country.

The policy also addresses the following key areas:

1. Planning and forecasting methodologies for physician resource planning
2. Allocation of physician resources to meet the needs of the population
3. Evaluation of the effectiveness of physician resource planning
4. Coordination of physician resource planning across provinces and territories

The policy is intended to be a living document that will be updated regularly to reflect changes in the health care system and the needs of the population.

Introduction

The purpose of the policy is to ensure that the planning and allocation of physician resources are done in a coordinated and efficient manner to meet the needs of the population.

The policy is intended to:

1. Establish a framework for the planning of physician resources in all provinces and territories
2. Ensure that there is a coordinated, efficient, and effective allocation of physician resources to meet the needs of the population in each province and territory
3. Ensure that there is a fair and equitable distribution of physician resources across the country
4. Address the key areas in physician resource planning

The policy is intended to be a living document that will be updated regularly to reflect changes in the health care system and the needs of the population.
