Subject: CMA Letter to the Council of the Federation regarding the Council of the Federation meeting and Canada’s health funding priorities (health workforce, primary care, labour mobility)

Hi,

The Canadian Medical Association (CMA) is pleased to submit the following letter to the Council of the Federation meeting on June 22, 2022.

The CMA’s health care system funding priorities are as follows:

1. Health Workforce: The health workforce is the backbone of Canada’s health care system. It is essential for the delivery of high-quality care to Canadians. The CMA supports policies that promote the recruitment, retention, and training of health care professionals in Canada.

2. Primary Care: Primary care is the first point of contact for most Canadians seeking health care. It is crucial for the effective delivery of health care services. The CMA supports policies that promote accessible and equitable primary care for all Canadians.

3. Labour Mobility: The ability of health care professionals to move within and across provincial borders is critical to ensure the delivery of high-quality care. The CMA supports policies that promote labour mobility in the health care sector.

The CMA encourages the Council of the Federation to consider these priorities as it develops a national health care strategy.

Yours sincerely,
