Appearance before the House of Commons Standing Committee on Health:

Study on Canada’s Health Workforce

Dr. Scott is a well-respected leader in the medical community. He was a strong advocate for the importance of addressing the health crisis in Canada. During his appearance at the House of Commons Standing Committee on Health, Dr. Scott discussed the challenges faced by the health workforce and called for urgent action to ensure that Canadians receive the care they need.

February 16, 2022
Drew spoke on the importance of funding and the need for better performance in the healthcare system.

Guidelines for physicians in interactions with industry

See also companion policy, Recommendations for physician innovators

Recommendations: Physicians should work to ensure that scientific advances are not unduly influenced by research and development and marketing activities of industry. Physicians should advocate for evidence-based policies and decisions that improve patient care and promote health equity. Physicians should be conscientious with respect to their financial relationships with industry. Physicians should disclose any financial relationships and any potential conflicts of interest.

Physicians should be aware of the potential for commercial pressures to influence their own professional judgment and actions. Physicians should act in the best interests of patients, taking into account the potential for commercial influence. Physicians should be transparent about any financial relationships with industry.

Physicians should be aware of the potential for commercial pressures to influence their own professional judgment and actions. Physicians should act in the best interests of patients, taking into account the potential for commercial influence. Physicians should be transparent about any financial relationships with industry.
