CMA POLICY

Framework for Ethical Decision Making During the Coronavirus Pandemic

The current global pandemic, including the potential for high levels of transmission of a novel respiratory virus, poses a moral and ethical challenge. More individuals than ever before are facing the deceased, making decisions about their medical care, which can be complicated.

In the current global pandemic, the ethical and moral challenges presented are significant. The potential for high levels of transmission of a novel respiratory virus, including COVID-19, poses a moral and ethical challenge. More individuals than ever before are facing the deceased, making decisions about their medical care, which can be complicated.
