Vaccine certificates

Policy position recommendation

1. The Canadian Medical Association (CMA) supports the development and implementation of a global framework for the establishment of a vaccine passport system to support international travel, work, and education, with a focus on ensuring that the system is accessible, transparent, and respects privacy.

2. The CMA recommends that vaccine passports be developed in a manner that is consistent with international standards and best practices for data protection.

3. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for verifying vaccine status and facilitating international travel and commerce.

4. The CMA recommends that any vaccine passport system be flexible and adaptable to changing circumstances, including the potential for future pandemics.

5. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system is accessible to individuals with disabilities.

6. The CMA recommends that any vaccine passport system be transparent and accountable, with mechanisms for addressing concerns and providing feedback.

7. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system respects individual privacy rights.

8. The CMA recommends that any vaccine passport system be tested and evaluated to ensure its effectiveness and safety.

9. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for addressing concerns about vaccine effectiveness and safety.

10. The CMA recommends that any vaccine passport system be flexible and adaptable to changing circumstances, including the potential for future pandemics.

11. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system is accessible to individuals with disabilities.

12. The CMA recommends that any vaccine passport system be transparent and accountable, with mechanisms for addressing concerns and providing feedback.

13. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system respects individual privacy rights.

14. The CMA recommends that any vaccine passport system be tested and evaluated to ensure its effectiveness and safety.

15. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for addressing concerns about vaccine effectiveness and safety.

16. The CMA recommends that any vaccine passport system be flexible and adaptable to changing circumstances, including the potential for future pandemics.

17. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system is accessible to individuals with disabilities.

18. The CMA recommends that any vaccine passport system be transparent and accountable, with mechanisms for addressing concerns and providing feedback.

19. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system respects individual privacy rights.

20. The CMA recommends that any vaccine passport system be tested and evaluated to ensure its effectiveness and safety.

21. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for addressing concerns about vaccine effectiveness and safety.

22. The CMA recommends that any vaccine passport system be flexible and adaptable to changing circumstances, including the potential for future pandemics.

23. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system is accessible to individuals with disabilities.

24. The CMA recommends that any vaccine passport system be transparent and accountable, with mechanisms for addressing concerns and providing feedback.

25. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for ensuring that the system respects individual privacy rights.

26. The CMA recommends that any vaccine passport system be tested and evaluated to ensure its effectiveness and safety.

27. The CMA supports the development of a global framework for vaccine passports that includes mechanisms for addressing concerns about vaccine effectiveness and safety.

Guidelines for physicians in interactions with industry

See also companion policy Recommendations for physician innovators

Recommendations

- Physicians must maintain a clear separation in their professional and personal lives.
- They should not accept gifts, meals, or other incentives that might influence their professional decisions.
- Physicians should disclose any financial relationships with industry to patients.
- They should ensure that all research and clinical trials are conducted ethically.

Recommendations for physician innovators

- Physicians should promote medical innovation and research.
- They should be open to new ideas and technologies.
- Physicians should collaborate with industry in a transparent manner.
- They should protect patient confidentiality and maintain ethical standards.
