Appearance before the House of Commons Standing Committee on Health

Dr. Katherine Smart
President of the Canadian Medical Association

May 9, 2022

Thank you for the opportunity to appear before the Standing Committee on Indigenous and Northern Affairs today. My name is Dr. Katherine Smart, and I am the President of the Canadian Medical Association. I am here to discuss the importance of adequate funding for our healthcare system to ensure that all Canadians have access to high-quality care.

The Canadian healthcare system is facing significant challenges, including a shortage of healthcare providers and rising costs. Despite these challenges, we must ensure that our healthcare system is adequately funded to meet the needs of all Canadians.

The Canadian Medical Association has been advocating for increased funding for our healthcare system for many years. We believe that increased funding is necessary to support the delivery of high-quality care to all Canadians, particularly in remote and northern communities.

In conclusion, I urge the Committee to support increased funding for our healthcare system to ensure that all Canadians have access to high-quality care. Thank you for your time and attention.

Dr. Katherine Smart
President of the Canadian Medical Association

Mandatory COVID-19 vaccination of health care workers

Policy position recommendation:

1. All health care workers should be fully vaccinated against COVID-19 to protect themselves, their families, communities, and patients.
2. All health care facilities should implement a comprehensive plan for vaccination of all health care workers, including strategies for outreach, education, and monitoring of vaccine uptake.
3. Health care facilities should be required to provide accessible and equitable vaccination opportunities for all health care workers.
4. Health care facilities should be accountable for ensuring that vaccination is facilitated for all health care workers, including those with disabilities or other vulnerabilities.

The Commission on Expert Advocacy and Policy (CEAP) recognizes the ethical imperative to protect the health and safety of all health care workers and patients. CEAP supports the implementation of a mandatory COVID-19 vaccination policy for all health care workers, in accordance with public health guidelines and in consultation with relevant stakeholders.
