Vaccine certificates:

1. The Canadian Medical Association (CMA) supports the implementation of mandatory COVID-19 vaccination policies for healthcare workers.
2. CMA believes that mandatory vaccination policies are necessary to protect the health and safety of patients, healthcare workers, and the community. The CMA supports the development of policies that are scientifically sound, fair, and transparent.
3. The implementation of mandatory vaccination policies should be based on evidence-based research and should be consistent with national and international guidelines.
4. CMA recommends that healthcare organizations provide education and support to employees to ensure compliance with vaccination policies.
5. CMA encourages healthcare organizations to develop a comprehensive plan for the implementation of mandatory vaccination policies, including the provision of confidential testing and alternative accommodation options for those who are exempt.
