Return to school during COVID-19

Policy recommendation

1. The role and trade associations (e.g., Canadian Medical Association, Canadian Nurses Association) should collaborate to develop evidence-based guidance for the safe and effective return to school during COVID-19. This guidance should include recommendations for
2. The Ministry of Health should prioritize school-based immunization programs to ensure that all eligible students receive the COVID-19 vaccine. This includes
3. Health authorities should implement strict infection control measures in schools, including
4. The Ministry of Education should work with school boards and
5. Schools should implement

CMA recommendations for EMERGENCY FEDERAL MEASURES TO CARE FOR AND PROTECT CANADIANS DURING THE COVID-19 PANDEMIC

Submitted to the Minister of Finance
March 16, 2020

In a rapidly evolving and unprecedented situation that requires the use of reasonable flexibility and extraordinary measures to support our response to the COVID-19 pandemic,

The Canadian Medical Association (CMA) recommends the following federal policy interventions in order to provide comprehensive, timely, and adequate support to our health care system and its health care providers in order to ensure the health and safety of Canadians, including the health care delivery system at the local level:

1. In the context of the Canadian health care system, there are many areas that are facing unprecedented strain, including)
   a. Infection prevention and control measures in long-term care facilities, including supportive and palliative care
   b. Personal protective equipment (PPE) supply and proper program of PPE use
   c. Identification of a rapid response mechanism for health care workers, including training and supplies
   d. Ensuring appropriate mechanisms for communicable disease control, including contact tracing

2. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

3. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

4. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

5. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

6. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

7. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

8. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

9. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

10. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

11. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

12. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

13. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

14. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.

15. Immediate funding for the necessary supply of PPE, including personal protective equipment (PPE), for health care workers and patients in order to protect the health and safety of health care providers and patients.
