CONSULTATION ON THE FEDERAL TOBACCO CONTROL STRATEGY

Dear [Name of the Canadian Tobacco Association (CTA)],

I am responding to your request for consultation in regard to the Tobacco Control Report (TCC) and on the
Consultation on the renewal of Federal Tobacco Control Strategy.

The latest Canadian Healthy Tobacco Survey reports that 78.7% of the pregnant
women aged 18 and over report having 10 or more cigarettes at least once in the past 30 days. This
suggests that the Federal Tobacco Control Strategy (FTCS) needs to be strengthened to

We support the Surrey District’s goal of less than 5% tobacco use by 2015. It must be
recognized that specific subpopulations, such as indigenous populations, will require
additional attention and support. This report provides information and evidence that support

The CMA calls for continued investment in tobacco control, disease prevention, and
collaborative partnerships to enable the implementation of the Federal Tobacco Control
Strategy.
