Mandatory COVID-19 vaccination of health care workers

Policy position recommendation:

1. All health care workers should be fully vaccinated for COVID-19 precautionary measures. This includes community and health care workers.

2. Health care workers who work in areas where vaccines are not readily available, and who are not able to receive the vaccine due to personal or workplace reasons, should be subject to regular testing for COVID-19.

3. Health care workers who work in areas where vaccines are not readily available, and who are not able to receive the vaccine due to personal or workplace reasons, should be subject to regular testing for COVID-19.

4. Health care workers who work in areas where vaccines are not readily available, and who are not able to receive the vaccine due to personal or workplace reasons, should be subject to regular testing for COVID-19.

5. Health care workers who work in areas where vaccines are not readily available, and who are not able to receive the vaccine due to personal or workplace reasons, should be subject to regular testing for COVID-19.

6. Health care workers who work in areas where vaccines are not readily available, and who are not able to receive the vaccine due to personal or workplace reasons, should be subject to regular testing for COVID-19.

Avoiding negative consequences to health care delivery from federal taxation

The Canadian Medical Association (CMA) has always been concerned about the negative consequences of federal taxation on health care delivery. This policy provides a framework for addressing these issues and ensuring that the health care system remains effective and accessible.

The policy outlines the following key points:

1. Federal taxation can create financial disincentives for physicians to work in underserved areas.
2. The policy recommends that the federal government consider tax credits or deductions for physicians working in remote or underserved areas.
3. The policy also calls for the exploration of alternative funding models that do not rely on federal taxation.

The policy is intended to be a living document, with regular updates as new information becomes available.
