March 25, 2020

Dear [Name],

The Canadian Medical Association (CMA) is writing to inform you of the importance of protecting and supporting Canada’s health-care providers during the COVID-19 pandemic. We are concerned about the impact of this crisis on the health and well-being of health-care providers, as well as on the quality of care provided to patients.

We urge all levels of government to take immediate action to support health-care providers in their efforts to respond to the COVID-19 pandemic. This includes providing additional funding for personal protective equipment, as well as ensuring that adequate supplies of other essential medical supplies are available for health-care providers.

We also recommend that health-care providers be provided with additional support to manage the increased workload associated with the COVID-19 pandemic. This could include the provision of additional staff, as well as the implementation of telemedicine and other technologies to support patient care.

We look forward to working with you to ensure that health-care providers have the support they need to respond to the COVID-19 pandemic.

Sincerely,

[Signature]
