Joint statement on scope of practice

Canadian physicians were granted access to federal health care programs to treat all patients in the community on a timely basis.

The Canadian Medical Association (CMA) and the Canadian Nurses Association (CNA) have been working collaboratively to develop a joint statement on the scope of practice of physicians and nurses. The statement will provide a framework for discussion on the appropriate roles of physicians and nurses in the delivery of health care services.

The joint statement will be presented to the CMA and CNA Councils for approval. It will also be submitted to the Council of Ministers of Health of Canada for consideration.

The joint statement will be available on the CMA website at www.cma.ca and the CNA website at www.cnurses.ca.
