**CMA POLICY**

**PHYSICIAN RESOURCE PLANNING**

(Updated 2015)

The purpose of this policy is to guide the planning, development, and delivery of health services in Canada, ensuring that they are accessible, affordable, and of high quality.

**Introduction**

The purpose of the policy is to guide the planning, development, and delivery of health services in Canada, ensuring that they are accessible, affordable, and of high quality.

1. **Physician resource planning**
   - Physician resource planning aims to ensure that the health care system is provided with appropriate and adequate health care services in a timely and effective manner. This policy is intended to guide the planning, development, and delivery of health services in Canada, ensuring that they are accessible, affordable, and of high quality.

2. **Health human resources**
   - Health human resources refer to the professionals who provide health care services, including physicians, nurses, and other health care providers.

3. **CMA Policybase - Canadian Medical Association**
   - The CMA Policybase is a resource for Canadian medical associations, providing a comprehensive library of policies and guidelines on various health-related topics.

Scopes of Practice

Purpose
The policy outlines the principles and criteria for determination of the scope of practice for physicians and the processes used in determining the scope of practice for physicians.

Background
Doctors are the only health professionals authorized to practice medicine in Ontario. The scope of practice for physicians is determined by Ontario Regulation 596/99, which sets out the scope of practice for all health professionals in Ontario. The scope of practice for physicians is determined by the College of Physicians and Surgeons of Ontario (CPSO) and is based on the College's Standards for the Practice of Medicine. The College's Standards for the Practice of Medicine provide a framework for the determination of the scope of practice for physicians.

Principles for determining scope of practice
Physicians are responsible for determining their scope of practice. The scope of practice for physicians is determined by the College of Physicians and Surgeons of Ontario (CPSO) and is based on the College's Standards for the Practice of Medicine. The College's Standards for the Practice of Medicine provide a framework for the determination of the scope of practice for physicians. The scope of practice for physicians is determined by the College of Physicians and Surgeons of Ontario (CPSO) and is based on the College's Standards for the Practice of Medicine. The College's Standards for the Practice of Medicine provide a framework for the determination of the scope of practice for physicians.
