“Putting Patients First”

Comments on Bill C-6
(Personal Information Protection and Electronic Documents Act)

Submission to the Senate Standing Committee on Social Affairs, Science and Technology

Nov. 27, 1997

Olivia Dhakal

Canadian Medical Association

Executive Summary

This committee has been formed, pursuant to a motion agreed upon by the House of Commons, to consider Bill C-6 and its amendments (Bill C-10), with a view to promoting the public interest in the field of electronic information technology.

The bill is designed to protect the personal information of individuals and to ensure that it is used only for the purposes for which it was collected, to prevent its misuse, to prevent unauthorized access to it, and to prevent unauthorized disclosure of it. The bill also provides for the establishment of an independent body, the Privacy Commissioner, to ensure that the provisions of the act are being complied with.

The Canadian Medical Association supports the principles of Bill C-6 and its amendments. It is concerned, however, about some of the provisions of the act, particularly those relating to the collection and use of personal information. It recommends that the act be amended to ensure that it is consistent with the principles of the act and that it be reviewed periodically to ensure that it is effective in protecting the personal information of individuals.

In conclusion, the Canadian Medical Association supports the principles of Bill C-6 and its amendments and recommends that the act be amended to ensure that it is consistent with the principles of the act.
