**Policy recommendation**

1. It is important to maintain and communicate accurate, evidence-based information to the public and health-care providers, to help ensure that the knowledge is up-to-date and accurate. The public and health-care providers should be made aware of the latest research findings and guidelines. This information should be provided in a clear and accessible format. The public and health-care providers should be encouraged to seek further information and support as needed.

2. It is important to maintain and communicate accurate, evidence-based information to the public and health-care providers, to help ensure that the knowledge is up-to-date and accurate. The public and health-care providers should be made aware of the latest research findings and guidelines. This information should be provided in a clear and accessible format.
