### Documents

- **CMA POLICY**
  - **ADVANCE CARE PLANNING**

  **AIM:***
  - To support patients and families facing the decision to make a written plan for future medical care.
  - To ensure that patients and families are informed about the options available and the implications of those options.
  - To ensure that decisions are made in a way that respects the patient's values and preferences.

  **RATIONALE:**
  - Advance care planning is an essential component of good medical care.
  - It helps to ensure that patients receive care that is consistent with their values and preferences.

  **POLICY:**
  - **Advance care planning is a shared decision making process** that involves the patient, family, and healthcare provider.
  - The process should be initiated when the patient is able to communicate their preferences about future medical care.
  - The process should be repeated as needed to ensure that the patient's preferences are up-to-date.
  - The process should be documented in a clear and accessible manner.

  **COMMENTS:**
  - **Advance care planning is a shared decision making process** that involves the patient, family, and healthcare provider.
  - The process should be initiated when the patient is able to communicate their preferences about future medical care.
  - The process should be repeated as needed to ensure that the patient's preferences are up-to-date.
  - The process should be documented in a clear and accessible manner.
