Mandatory COVID-19 vaccination of health care workers

1. The Canadian Medical Association (CMA) recommends a mandatory COVID-19 vaccination policy for health care workers.
2. This policy is intended to protect patients, health care workers, and the general public from the spread of COVID-19.
3. The policy should be implemented in collaboration with local health authorities and organizations.
4. The CMA supports the provision of education and support for health care workers to increase vaccine acceptance.
5. The policy should be reviewed and updated regularly to ensure its effectiveness.
