“Putting Patients First”

Comments on Bill C-6
(Personal Information Protection and Electronic Documents Act)

Submission to the Senate Standing Committee on Social Affairs, Science and Technology

Nov. 27 1999
Clock, Ontario

Executive Summary

The Canadian Medical Association, in view of the growing concern over the adequacy of personal information protection legislation, is concerned that the Bill C-6, the Personal Information Protection and Electronic Documents Act, be amended to ensure that the confidentiality of personal information is protected and that patients have access to their own medical records. The Association supports the principles embodied in Bill C-6, but believes that the Bill is not adequate to protect the confidentiality of personal information. The Association recommends that the Bill be amended to ensure that the confidentiality of personal information is protected and that patients have access to their own medical records.

The Canadian Medical Association, in view of the growing concern over the adequacy of personal information protection legislation, is concerned that the Bill C-6, the Personal Information Protection and Electronic Documents Act, be amended to ensure that the confidentiality of personal information is protected and that patients have access to their own medical records. The Association supports the principles embodied in Bill C-6, but believes that the Bill is not adequate to protect the confidentiality of personal information. The Association recommends that the Bill be amended to ensure that the confidentiality of personal information is protected and that patients have access to their own medical records.
