REPLACES  Promoting Physical Activity and Healthy Weights
TOPICS  Population health, health equity, public health

Introduction
The Canadian Medical Association (CMA) supports the promotion of healthy lifestyles in order to improve the health and well-being of the Canadian public. The purpose of this policy is to encourage and support efforts to promote healthy behaviours, with a focus on healthy eating and physical activity. This policy is intended to complement similar efforts made by other health organizations and to support the goals of the federal government’s Healthy Public Policy (2011-2015). The policy was developed in consultation with the CMA’s Population Health Committee and is consistent with the CMA’s Public Health Platform (2012-2015).
