To: Mr. Michael Wade, Chair

CMA Statement on Racism

Dear Mr. Wade,

The Canadian Medical Association (CMA) appreciates the opportunity to provide input to the Federal External Panel on assisted dying. The CMA understands the Panel’s objective is to consider the legal justification for assisted dying in Canada.

The Panel is being asked to consider the role of the medical profession in the provision of medical assistance in dying. The CMA understands the Panel has been asked to consider the following questions:

1. Is it possible to separate the issue of the provision of medical assistance in dying from the medical ethics and professional standards that guide the practice of medicine?
2. If assistance in dying is determined to be a legitimate component of the medical practice, what are the safeguards that should be put in place to ensure that these activities are carried out in a manner consistent with the principles of medical ethics and professional practice?

The CMA understands the Federal Panel is reviewing all aspects of how assisted dying could be provided in the context of the Supreme Court of Canada’s decision in Carter v. Canada. The CMA is concerned about the implications of the Panel’s recommendations for the development of national standards for the provision of medical assistance in dying.

The CMA understands that the Panel is considering the following questions:

1. What is the role of the medical profession in the provision of medical assistance in dying?
2. What are the safeguards that should be put in place to ensure that these activities are carried out in a manner consistent with the principles of medical ethics and professional practice?

The CMA understands that the Panel is considering the following questions:

1. What is the role of the medical profession in the provision of medical assistance in dying?
2. What are the safeguards that should be put in place to ensure that these activities are carried out in a manner consistent with the principles of medical ethics and professional practice?

The CMA understands that the Panel is considering the following questions:

1. What is the role of the medical profession in the provision of medical assistance in dying?
2. What are the safeguards that should be put in place to ensure that these activities are carried out in a manner consistent with the principles of medical ethics and professional practice?

The state of the health care system: Where do we stand?

The podcast series "Where do we stand?" explores the state of the health care system across Canada, with interviews featuring experts in medicine, nursing, and policy. The episodes cover a range of topics, from the effects of COVID-19 on health care to the challenges faced by doctors and nurses. The series aims to provide a comprehensive overview of the current state of the health care system and to inspire action for a better future. In the next episode, we will delve into the role of physicians in providing primary care and the impact of fragmented care on patient outcomes. Stay tuned for more insights from leading experts in medicine and nursing. For more information, visit the podcast website."
