CMA CODE OF ETHICS AND PROFESSIONALISM

The CMA Code of Ethics and Professionalism provides ethical and professional standards and responsibilities of the medical profession. The Code applies to all physicians and surgeons and is intended to guide physicians in their professional and ethical conduct. The Code is intended to apply to the practice of medicine without regard to specialty.

In the Code, duty refers to a duty of care imposed on the physician by the Code, and professional conduct refers to the manner in which a physician carries out his or her duties. The Code is intended to apply to the practice of medicine without regard to specialty.

The Code is intended to apply to the practice of medicine without regard to specialty. The Code is intended to apply to the practice of medicine without regard to specialty. The Code is intended to apply to the practice of medicine without regard to specialty.

REPLACES  Medical professionalism (2002)
TOPICS  Ethics and medical professionalism

The image contains a policy document titled "Medical professionalism (Update 2005)". The document discusses the principles and guidelines for maintaining medical professionalism, emphasizing the importance of ethical conduct and integrity in the practice of medicine. The document outlines the role of medical professionals in promoting patient health, maintaining confidentiality, and adhering to standards of care.

The policy highlights the accountability of medical professionals to society and their patients. It stresses the need for continuous education and professional development to ensure up-to-date knowledge and skills in providing quality care. The document also addresses the role of medical associations in upholding ethical standards and supporting the professional development of their members.

The policy encourages openness and transparency in professional communication, advocating for clear and honest discussions with patients, peers, and the public. It also emphasizes the importance of accountability and responsibility in medical practice, underscoring the need for ethical decision-making and adherence to ethical guidelines.

Overall, the policy serves as a foundational document for medical professionals, guiding them in upholding high standards of professionalism and ethical conduct in their practice.
