Addendum to the Canadian Medical Association’s Pre-budget Submission

December 2020

The Canadian Medical Association (CMA) pleads to the federal government to support the mental and physical health of Canadians, the federal government’s healthcare system, and the health and safety of Canadians.

RECOMMENDATION 1
The federal government should increase support for mental health and well-being initiatives, including a $5.00 per prescription fee on all anti-depressants and anti-anxiety medication, in order to support the mental health of Canadians.

RECOMMENDATION 2
The federal government should increase funding for the creation of a national pharmacare program, including a $5.00 per prescription fee on all anti-depressants and anti-anxiety medication, in order to support the mental health of Canadians.

RECOMMENDATION 3
The federal government should increase funding for the creation of a national pharmacare program, including a $5.00 per prescription fee on all anti-depressants and anti-anxiety medication, in order to support the mental health of Canadians.
