Dearest colleagues, we extend our warmest gratitude to you and acknowledge the significant contributions you have made to the CMA-Canadian Medical Association.

In response to the ongoing COVID-19 pandemic, the CMA has been monitoring the situation closely and collaborating with various stakeholders to develop comprehensive strategies. We are committed to providing timely updates and guidance to ensure the health and safety of all Canadians.

We believe that early intervention and effective communication are crucial in managing the spread of the virus. The CMA has been actively working with the federal, provincial, and territorial governments to develop evidence-based recommendations for healthcare providers and public health officials. These recommendations aim to mitigate the impact of the pandemic on healthcare systems and support the well-being of all Canadians.

Furthermore, the CMA has been advocating for equitable access to healthcare services, particularly for vulnerable populations. We recognize the disproportionate impact of COVID-19 on marginalized communities and are committed to ensuring that all sectors work together to address these challenges.

As we move forward, we remain steadfast in our commitment to public health and the well-being of all Canadians. We encourage continued collaboration and innovation to overcome the challenges posed by the pandemic. Together, we can build a stronger, more resilient society.

Thank you for your dedication and tireless efforts in this unprecedented time. Let us continue to work together to ensure the health and safety of all Canadians.
