CMA Submission: Non-prescription Availability of Low-Dose Codeine Products

Submissions to the Health Canada consultation on the potential risks, benefits and impacts of changes to the regulations in the Cannabis Act and Regulations so that would result in products containing codeine to be sold by prescription only.

CMA Submission
Legislation, Regulation and Restriction of Access to Marijuana
Government of Canada - Task Force on Marijuana Legislation and Regulation
August 25, 2016

STATEMENT | DÉCLARATION

CMA Submission - Legislation of Marijuana

Dear [Recipient Name],

Thank you for the opportunity to respond to the Government of Canada's Consultation on the Legislation, Regulation and Restriction of Access to Marijuana. The Canadian Medical Association (CMA) would like to provide its comments on the consultation in areas where we have expertise and information. This document is intended to inform the policy debate and can be used by stakeholders.

The CMA believes that the health-care system should be protected from the harmful effects of marijuana and that the necessary safeguards are in place to ensure that this is the case. The CMA also believes that the current federal laws and regulations surrounding the production, distribution, and sale of marijuana are not sufficient to protect the health and safety of the public. The CMA recommends that the federal government adopt a policy of prohibition, which would include the regulation of the production, distribution, and sale of marijuana.

The CMA believes that the current federal laws and regulations surrounding the production, distribution, and sale of marijuana are not sufficient to protect the health and safety of the public. The CMA recommends that the federal government adopt a policy of prohibition, which would include the regulation of the production, distribution, and sale of marijuana.

The CMA believes that the current federal laws and regulations surrounding the production, distribution, and sale of marijuana are not sufficient to protect the health and safety of the public. The CMA recommends that the federal government adopt a policy of prohibition, which would include the regulation of the production, distribution, and sale of marijuana.

The CMA believes that the current federal laws and regulations surrounding the production, distribution, and sale of marijuana are not sufficient to protect the health and safety of the public. The CMA recommends that the federal government adopt a policy of prohibition, which would include the regulation of the production, distribution, and sale of marijuana.

The CMA believes that the current federal laws and regulations surrounding the production, distribution, and sale of marijuana are not sufficient to protect the health and safety of the public.
