The Health risks and harms associated with the use of marijuana
Chairman, Standing Committee on Health
Winnipeg, May 2014

In summary, marijuana use in Quebec has increased dramatically in recent years. This increase is occurring in the context of an increasing number of people using marijuana, both for medical and non-medical purposes. The use of marijuana for medical purposes has been increasing steadily in recent years, but the use of marijuana for non-medical purposes has increased significantly in recent years. This increase is occurring in the context of an increasing number of people using marijuana, both for medical and non-medical purposes. The use of marijuana for medical purposes has been increasing steadily in recent years, but the use of marijuana for non-medical purposes has increased significantly in recent years.
